Methodologies: User Research, Personas, User Journey Mapping, Wireframing, Prototyping, UI Design, Responsive Web Design

Engineering: HTML, CSS, Javascript, JQuery, Bootstrap

EXPERIENCE

MoodChart.me, Remote — *Developer, UX Designer*

August 2023

- Responsible for setting the timeline and overseeing completion of the project.
- Designed front-end after conducting user research to determine how best to address users' needs.
- Developed product using bootstrap, overseeing github operations and organizing repository structure to avoid issues when merging.

Salt Lake Academy of Music Website Redesign, Remote — *UX Designer*

June 2023

- Conducted user interviews, and a heuristic evaluation of the original site to understand the problem.
- Created a user journey map and user scenario to determine the use case for the website.
- Designed a new responsive website, using a site map I created with my team in order to provide a cleaner, more organized user experience.

Autoliv, Ogden UT — *Production Trainer*

March 2019 - February 2023

- Trained new employees in production processes and oversaw proper safety protocols.
- Assisted in developing strategies for streamlining existing production processes.
- Assisted in troubleshooting issues with the production line when necessary.

EDUCATION

University of Utah, Remote

August 2023

UX/UI Design Bootcamp Certificate.

Weber State University, Ogden UT

August 2015 - April 2018

Studied computer science with a focus on web development.
